

# FENLAND DISTRICT COUNCIL

## PRESS RELEASE

13 March 2023

### **Come along to month-long St George's festival fun**

A packed programme of free events will be laid on in March next month (April) for this year's first-of-its-kind St George's Festival.

A giant dragon puppet with unique scales created by the people of March with artists will take centre stage at the festival and take inspiration from the dragon in the St George and the Dragon legend.

Cllr Jan French, Deputy Leader of Fenland District Council and Chairman of the March Events Committee, said: "This is such an exciting and packed programme that will appeal to a wide audience. We'd love as many people as possible to get involved and really embrace this opportunity to come together as a community.

"We'd like to thank all the partners we've worked with to develop this programme and make it so inspiring."

The festival will culminate on Sunday, April 23, with a 10am to 4pm event open-to-all in and around March library, in City Road.

The day will kick off with a 'dragon march' where the dragon created from scales made at community events with artists Cary and Ricki Outis - commissioned by MarketPlace Creative People & Places - will parade from the bandstand in West End Park, through the park and back to the Library Mound.

The day will include:

- an open-air arts and crafts market
- speciality food stalls and live entertainment
- storytelling by Dave Tonge, the Yarnsmith of Norwich, at the library
- live chalk window drawing at the library with Cary Outis
- children's art activities
- improvised poetry with Charley Genever
- professional youth theatre and school performances on the main stage
- live music including Newmarket Samba and March Brass Band at the Bandstand
- Music creation, virtual reality and 2D animation in March Library
- circus skills, falconry display, mini golf and a static scooter club display in West End Park.

Children from Fenland primary schools are making dragon puppets at school with the aid of a specially designed art kit by Ricki Outis and will join the march with their creations.

The puppets will then be displayed, creating a giant art installation at the Library Mound for all to see.

Neale Wade Academy art club students are also producing artwork for the festival.

Town centre businesses will be invited to have their shop windows decorated by artist Cary Outis.

In the run up to the day, there will be a range of free family-friendly fun community events at March Community Centre. They must be booked in advance and are open to anyone accompanied by a participating adult aged 19 or over (maximum two children per adult) and take place on:
